D line Balustrading

D line's handrail system is uniquely constructed from a number of standard modular components.

No on site fabrication or welding required.

Simple mounting. Made from high grade 316 Marine stainless steel.

Approved by the British Standards Institute.

The D line handrail system includes an engineered concept for minimizing the amount of custom bending required. The Omnibend connects individually tapered disks that can be added or subtracted to create the majority of angles encountered. Innovative connections, easy to install.

This product is constructed of 316 Marine grade Stainless Steel, to provide superior strength, corrosion resistance and a sanitary environment.

Available in Satin Stainless Steel finish (SSS).

Bloore & Piller Pull Handles

Bloore & Piller pull handles are a stylish solution that is becoming more noteworthy by the day.

More details will be available in next months newsletter or contact your local Sopers branch.

Product is included on Sopers CD Catalogue. (Available free)
